

**The Online Scientific Journal
'Noise Theory and Practice'**

has been published since 2015. The founder of the journal is Nikolay Igorevich Ivanov, Doctor of Engineering Sciences, Professor of the department of Ecology and Industrial Safety of the Baltic State Technical University 'VOENMEH' named after D. F. Ustinov, the founder of the transport acoustics in Russia.

'Noise Theory and Practice' is devoted to the fundamental problems in the field of vibroacoustics and accepts papers in the following areas:
- 29.00.00 Physics
- 29.37.00 Acoustics
- 43.00.00 General and complex issues of natural and exact sciences
- 87.00.00 Environmental protection. Human ecology.

All articles submitted to the editorial office are subject to mandatory review. The journal is an open network resource and published four times a year.

Location address of the Editorial office

17 building 'A' Bumazhnaya str.,
office 436-1
+7 (812) 495-77-97

e-mail: issues@noisetp.com

Executive Secretary
Nikitenko Anna

Journal is registered in Federal service for supervision of communications, information technology, and mass media
The certificate of registration
ЭЛ № ФС 77-74057

Contents

Tyurin A.P.	RUS
Development of an experimental setup for laboratory research of noise-protective materials pp. 7-24	
Vasilyev V.A.	RUS
The sound field above the highway formed by the movement of vehicles pp. 25-32	
Bortsova S.S.	RUS
A comprehensive solution to the problem of reducing the noise of railway transport pp. 33-47	
Bortsova S.S.	RUS
Selection of the optimal noise barrier according to parameters affecting acoustic efficiency pp. 48-65	
Isaev A.G.	RUS
Theoretical substantiation of acoustic efficiency of noise protection during manual abrasive treatment of welds pp. 66-77	
Kurchenko P.S.	RUS
Experimental studies of the spectral composition of vibrations and noise of coordinate and profile grinding machines pp. 78-91	
Razakov Zh.P.	RUS
Calculation of acoustic characteristics of workpieces of thread-grinding and slot-grinding machines for calculating noise levels in the workplace pp. 92-99
