

## **Noise Theory and Practice**

has been published since 2015. The founder of the journal is Nikolay Igorevich Ivanov, Doctor of Engineering Sciences, Professor of the Department of Environmental Engineering and Computational Mechanics of the Baltic State Technical University 'VOENMEH' named after D. F. Ustinov, the founder of the transport acoustics in Russia.

Noise Theory and Practice is devoted to the fundamental problems in the field of vibroacoustics and accepts papers in the following areas:  
- 29.00.00 Physics  
- 29.37.00 Acoustics  
- 43.00.00 General and complex issues of natural and exact sciences  
- 87.00.00 Environmental protection. Human ecology.

All articles submitted to the editorial office are subject to mandatory review. The journal is an open network resource and published four times a year.

## **Noise Theory and Practice Editorial office**

138, Bldg.7A, Obvodny Canal Emb.,  
Room 11-H, Office 2-2A  
St. Petersburg, 190020, Russia  
Phone: +7(812) 495-77-97  
e-mail: secretary@noisetp.com  
www.noisetp.com

## **Executive Secretary**

Anna Lubyanchenko

Journal is registered in Federal service for supervision of communications, information technology, and mass media

**The certificate of registration**

ЭЛ № ФС 77-74057

## Contents

**Bikmukhametov F.R., Kanev N.G.** RUS

Anechoic sound measuring chamber of the Research Institute of Building Physics: current acoustic characteristics  
pp. 7-17

**Voronov A.S., Krutova V.A.** RUS

A mathematical model for describing vibrations occurring during the operation of agricultural machinery  
pp. 18-24

**Dementyeva Yu.V., Kosyakin V.S., Pletnev V.S., Shilov A.A.** RUS

Research on the impact of industrial noise as the main cause of occupational diseases among employees of industrial enterprises in the Russian Federation  
pp. 25-35

**Lestenko N.A., Valstein K.V., Verkhova A.A.** RUS

Modern methods of analyzing the acoustic profile of Unmanned Aerial System using neural network technologies  
pp. 36-46

**Krutova V.A., Zavialov D.S.** RUS

Studying the acoustic characteristics at the combine harvester's discharge area  
pp. 47-56
